alifrost® doors

Optional cross rail for multiple inserts & added rigidity  
on alifrost® aluminium framed Perspex® doors & panels

Design your own look with new AliRail® from AliFrost®. No longer are you restricted to a single colour or like finishes, you can now break from tradition by creating multi coloured aluminium frame solutions.

AliRail® is a specially designed cross section, which when combined with selected AliFrost® frames, allows for multiple inserts within a single framed solution. This now means you can mix and match insert options from the whole AliFrost® range, to create a truly individual design.

You may choose to combine the steely, almost metallic grey of Perspex® Pearlescent Platinum,

with the icy white frosted appearance of Perspex® Frost Polar White. Or for something different blend natural Pearl Pearlescent with an industrial clear anodised alimesh®. The choices are almost endless.

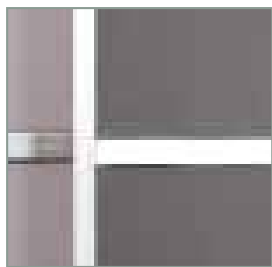

As with AliFrost®, AliRail® is a made to order, ready to install, designer range of aluminium doors and panels, suitable for Hinged, Lift Flap, Bifold, Sliding and Wardrobe Doors as well as Drawer systems.

For more information on AliRail® please phone (03) 9558 1544, or visit [www.alifrost.com.au](http://www.alifrost.com.au).

**Design your own look:** With the new AliRail® system your only limitation is your imagination. Choose between either a 19 Square, 9x55 Box or new 43x55 Flat frame in one of these popular configurations or develop your own.

19 Square

9x55 Box

43x55 Flat

2 piece (horizontal)

3 piece (horizontal)

2 piece (vertical)

3 piece (vertical)

## Mix & Match over 40 colours across 5 insert types

1. Perspex® - ultra high gloss
2. Perspex® Frost - anti fingermark finish
3. Perspex® Pearlescent - metallic lustre\*
4. Euromir® - reflective\*
5. AliMesh® - one way vision aluminium mesh

See alifrost brochure or visit [www.alifrost.com.au](http://www.alifrost.com.au) for more information.

*\*Note shading can occur with Pearlescent product. Pearlescent & Euromir are single sided products.*
