

NEW Flat Frame

NEW Euro Stainless

Introducing the new alifrost® 43x55 Flat, aluminium frame door. This exciting new addition, to the already extensive alifrost® frame range, features a wider flat face, for easier handle fitting. It uses an innovative new beading system, for improved quality and longevity and for the first time is available in both clear anodised and new Euro Stainless finishes.

The new Alifrost® Euro Stainless finish has been specifically designed to match in with the latest European appliances, setting a new benchmark for quality.

Features:

- Wider flat face for easier handle fitting
- New beading system for improved quality & longevity
- Available in both clear anodised & Euro Stainless finish
- Superior match to the latest European appliances
- Does not mark like real stainless steel
- Available with optional alihandle™ (clear anodised only)
- Available with 40 genuine Perspex® acrylic & alimesh® inserts.
