I/We the clients acknowledge that the aluminium mesh supplied in AliMesh doors and panels, is a man made perforated mesh material. Due to the manufacturing limitations of this mesh, slight irregularities in the pattern may occur. AliMesh doors and panels should be handled with extra care. Due to the soft nature of aluminium mesh, dents may occur if doors and or panels are handled incorrectly. My/our signatures below confirms our acceptance of the above mentioned points. Any alteration or cancellation of this order, may incur a charge. Authorised Signatory: _____
